Empire State Building

Empire State Building

The Empire State Building is a 102-story Art Deco skyscraper in Midtown Manhattan, New York City. It was designed by Shreve, Lamb & Harmon and built from 1930 to 1931. Its name is derived from "Empire State", the nickname of the state of New York. Located in the centre of Midtown Manhattan, our 86th and 102nd floor observatories provide unforgettable 360° views of New York City and beyond. As the most famous observatory in the world, the 86th Floor has been the setting of dozens of movie and television scenes. The Observation Deck wraps around the building's spire, providing 360-degree views of New York and beyond. From up here there are one-of-a-kind views of Central Park, The Hudson River and East River, The Brooklyn Bridge, Times Square, The Statue of Liberty, and much more.

9/11 Memorial Museum

9/11 Memorial Museum

The 9/11 Memorial & Museum is the United States principal institution concerned with exploring 9/11, documenting its impact, and examining its continuing significance. Honouring those who were killed in the 2001 and 1993 attacks is at the heart of the mission. Located at the World Trade Centre in New York City, the 9/11 Memorial Museum tells the story of 9/11 through media, narratives, and a collection of monumental and authentic artifacts, presenting visitors with personal stories of loss, recovery, and hope. As a monument to human dignity, courage, and sacrifice, the 9/11 Memorial & Museum honours the nearly 3,000 people killed in the terrorist attacks of September 11, 2001 and February 26, 1993, recognizes the courage of those who survived, and salutes those who risked their lives to help others.
